

DIMENSION FUNDING, LLC
EQUIPMENT AND SOFTWARE FINANCING MADE SIMPLE

Dimension Funding

Product Description

100% of AccountMate's software, maintenance, professional services, and their add-on partners' solutions can be financed through Dimension Funding. Training, labor, and installation can also be financed. Capital expenditures like hardware options, too, can be financed under AccountMate Leasing.

It's an ideal solution for companies looking to take control of production quality without taking on large upfront investments. Leasing lets you get the software free of budget ceilings. Having low monthly payments lets you hold expenditures within budget limits.

Competitive financing provided between \$5,000 and \$5 million for small to midsize companies, as well as lines of credit up to \$100,000, throughout the US and Canada.

The IRS allows for lease payments to be fully deductible if the business uses the leased software/ equipment. This provides a more attractive balance sheet because the monthly lease payment is viewed as a business expense instead of a liability or long-term debt.

AccountMate has made it even easier for our customers to acquire our products. Through our financing partner, Dimension Funding, we are offering competitive and affordable lease terms. Dimension Funding's credit review process is very quick, and generally little-to-no financial information is required to get approved.

Company Profile

Since 1978, Dimension Funding has worked hard to build and maintain its reputation as a trusted source of capital for small and medium-sized business owners, entrepreneurs, professionals and owner-operators by providing commercial financing and leasing of virtually any equipment, good or product.
