

Freight+™

Multi-Carrier Shipping Software

Freight+

Product Description

Freight+ is a multi-carrier, multi-user shipping manifest system that runs inside your accounting system, externally linked or as a standalone product. Features Include:

- Posts shipping price, cost and tracking # to AccountMate Sales Order real-time from inside of AccountMate or when running Freight+ as a stand-alone shipping system.
- Rate Shopping all Carriers for best rate.
- Thermal Packing Slip - Select the items for each box shipped and Freight+ will print a Packing Slip on a 4" X 6" thermal label with tracking and box # for each item shipped.
- Rules Table - Enter your shipping rules. Example If COD and Order > 500.00 shipping FREE.
- Blind/Drop Shipping - Places an alternate FROM address on the shipping label. Setup customers with permanent drop shipping address.
- 3rd party, consignee, collect billing - Setup customers with permanent billing scenarios so every time you ship a sales order the billing is correct without having to retype account information.
- Electronically file SED (Shippers Export Declarations) with AESDirect. Freight+ is certified by US Census to electronically file your SED documents. SED's will be filed real-time as orders are shipped and ITN's (International Tracking Numbers) will automatically be retrieved and placed on shipping tags and international documents.
- Mark-up/Down Carrier Rates - Increase/Decrease carrier rates by a % or \$ and give discounts to one or all customers.

Freight+ is customizable for your specific shipping needs. Freight+ is the original and is the best shipping software available.

Company Profile

Since 1986 Freight+ has been helping companies save tens of thousands of dollars yearly in labor hours by streamlining their businesses and by eliminating double data entry thus preventing 50% + human error.

Freight+ is a powerful shipping manifest system for UPS, FedEx, USPS, and LTL carriers. Freight+ provides shipping and rate shopping of domestic and international shipments for multiple carriers and is integrated within the AccountMate Order Entry, Invoicing and Enter Shipments screens. Freight+ prints shipping labels, bill of lading, packaging slips, and invoices, sends advanced e-mails to customers with tracking number, sends pickup notification to carrier if applicable.

KEY FEATURES

- Streamlines businesses which saves labor hours, saves human input error and saves money
- Bill of Lading (laser form or dot matrix) for LTL shipments
- Supports Windows, Citrix, Terminal Server, Wide Area Networks and Multiple Shipping Terminals
- Compatible with existing carrier hardware
- Back Ground Processing (Optional) - No user input all processing including printing of labels is processed real-time without any user input.

PRODUCT COMPATIBILITY

Freight+ is compatible with all versions of AccountMate
