

# Harmony Human Resources (HRIS)

## Product Description

Harmony is Paymate’s hosted human resources solution for businesses of all sizes. Each module can work independently or as an integrated system sharing a common database. Available modules include Human Resources, Time & Attendance, and Employee Self-Service.

Harmony’s human resources module helps you easily manage your employees’ information and documents, as well as conduct user-definable performance appraisals and training courses. Employee self-service is also available so your employees can manage their own information easily!

AccountMate clients can securely access their cloud data any time through a modern web browser. Save time and money by automating your processes, such as onboarding and performance appraisals. Focus on other important aspects of your business and let Harmony take care of your human resources processes for you.

## Company Profile

Paymate Software has been providing businesses of all sizes with cost-effective payroll and HR solutions for over 30 years. Our solutions can be easily customized to fit most needs in any industry. Paymate offers simple and reliable software solutions that works with AccountMate for easy transferring of your general ledger records. With modules for Canadian payroll, time & attendance, and human resources, you can easily pick and choose only the modules you need in both our on-premise and hosted products!
