

Harmony Time & Attendance

Product Description

Harmony is Paymate’s hosted payroll and human resources solution for businesses of all sizes. Each module can work independently or as an integrated system sharing a common database. Available modules include Payroll, Human Resources, Time & Attendance, and Employee Self-Service.

Harmony’s time & attendance module helps you easily track, review, and approve time before the records are sent to your payroll. Customizable approval paths make it easier for you to define your managers’ responsibilities.

AccountMate clients can securely access their cloud data any time through a modern web browser. Once your employees’ timesheets have been reviewed and approved, they can be seamlessly sent to Harmony’s payroll module. Once you’ve finished your payroll, you can easily create and export your general ledger entries before importing them directly into AccountMate.

Company Profile

Paymate Software has been providing businesses of all sizes with cost-effective payroll and HR solutions for over 30 years. Our solutions can be easily customized to fit most needs in any industry. Paymate offers simple and reliable software solutions that integrate with AccountMate for easy transferring of your general ledger records. With modules for Canadian payroll, time & attendance, and human resources, you can easily pick and choose only the modules you need in both our on-premise and hosted products!

KEY FEATURES

- Custom PTO Policies – You can define and customize any PTO policies.
- Custom Approval Paths – Harmony can handle both single- and multi-level approval paths, all customized to your needs.
- Exception Codes – When your managers are reviewing timesheets, easily identify if your employees were absent, late, or early with colour-coded exception codes.
- Reporting – We provide you with all the standard reports you need, but Harmony’s dynamic reporting tool lets you customize your own reports.
- Integration with payroll – As soon as your employees’ timesheets are approved, they can be exported into a file for direct import into your payroll software.
