AIS JobBoard

Product Description

AIS JobBoard is a user-friendly browser-based application that integrates with AccountMate, enhancing project management and tracking capabilities. With easy access to key project details, including quotes, order status, job allocations, scheduling, shipping, delivery, installation, inspection, and detailed activity, JobBoard consolidates all information in one place for efficient monitoring.

Designed for industries such as professional services, custom builders, made-to-order manufacturers, and designers/installers, AIS JobBoard offers a unified dashboard where teams can effortlessly oversee multiple projects and make updates from any browser or mobile device. Its customizable features allow for tailored usage, while intuitive interface, color coordination, and drill-down functionality provide a clear understanding of project status and requirements.

AIS JobBoard simplifies project management by centralizing data and streamlining workflows. With integrated allocation, scheduling, shipping, and delivery features, teams can effectively manage resources and ensure timely project completion. The application's integration with AccountMate ensures accurate data synchronization and facilitates comprehensive project analysis for enhanced profitability and success.
