

Online Billing / Click-To-Pay

Product Description

Click-To-Pay is one of Doculivity's most popular features due to its convenience and substantial cost savings potential. Customers and vendors are increasingly becoming quite web-savvy. As they grow accustomed to paying bills electronically, reap all of the associated benefits!

Offering an electronic payment option greatly reduces the number of paper remittances received. Less paper means fewer costly lockbox deposits. Organizations often discover that their Click-To-Pay savings represent a large percentage of the overall cost reduction they experience from using Doculivity.

Enabling customers and vendors to pay bills with a few quick clicks encourages them to pay sooner. When Doculivity E-Statements are offered with the Click-To-Pay option, payment cycles are generally shortened by several days. Many firms report a decrease of 15 days or more.
