Acme Point of Sale
Built for specialty retail.

Acme Point of Sale
_____

Product Description

Point of sale software, equipment and systems built for specialty retail.

Acme Point of Sale is fast, feature rich and user friendly. Acme is designed from the ground up as true point of sale that interfaces to a multitude of POS hardware for a complete solution. Our credo "Keep the Lanes Moving" addresses the main needs of retailers and resellers… Be fast, flexible, fault tolerant and fool proof.

Acme includes our traditional user interface and our awesome "gotta see it" touch screen.

We are load tested to 25 lanes, 2,500 transactions per hour, 250,000 items and 250,000 customers. To keep the lanes moving with large databases we include multiple PLU's per item, printable bar coded price books, Merge Scan, Super Find (think google) and much more.

Acme Point of Sale. Checkout. -The way it should be.

Company Profile

Total BusinessWare was founded in 1999 to support accounting system resellers.

KEY FEATURES

• Works with all major point of sale equipment and card processors

• From 1-20 checkout lanes and 1 to 1000 stores
