

Shipt for AccountMate

Product Description

This fully integrated shipping solution will allow for you to process shipments from within the Ship Sales Order and or Create Invoice screens. It allows you to create multiple packages/boxes and automatically calculate the weight of them by using the weight field from the AccountMate inventory, also it automatically and accurately calculates the insurance value for each package and allows you to assign 3rd party billing from account number stored in the AccountMate customer record, all seamlessly integrated. Available in both a Lite Version and Pro Version.

- Prints carrier approved Shipping Labels after saving each Shipment.
- It writes back to the AccountMate invoice a detail of the shipment to include, package weight, value, freight amount, insurance amount, tracking number, etc. All this information is maintained on a separate invoice child table for easy access.
- Amend shipments function as long as the shipment has not been closed for the day.
- It allows to build a cross reference table for shipping carries to match to SHIP IT available carries.
- 3rd Party, consignee & Multiple email notification defined by Customer.
- Dimensional weight Inventory cross reference table
- Create and submit Return Labels and Electronic call tags.
- Track shipments within AccountMate.
- Package Tracking Report allows viewing, printing or faxing Invoiced package information from within AccountMate
- Package Definition – it allows to add items to individual or multiple packages and make changes on the fly with simple drag and drop operations.
- Accudart Module available for pick and pack functionality.
- Can integrate with Accountmate Create Sales Order, Ship Sales Order, Create Invoice & RMA Forms.

*Accountmate special source code license required for Pro Version if end user does not own source code

Company Profile

Since 1995, AKA Computer Consulting has been helping New York City Metro and Tri- State businesses run more profitably and efficiently with the implementation and maintenance of customized business technology solutions. With an old-fashioned commitment to providing the highest level of customer service possible, Alex and his staff deliver popular mid-market accounting software solutions such as QuickBooks and AccountMate Software as well as Shipping Solutions.

Third party software included on this site has not been tested and is not endorsed by AccountMate Software. Technical support, warranties, and compatibility are the responsibility of the issuing company.
